Survey-to-pixel quality-control funnel

Anza / Agadir · Atlantic coast

85 quality-flagged negative cells, 38 with <3 negative points, 49 mixed-sign cells; these reasons may overlap. 205 candidate patches failed full-window Fmask QC.

Ras El Ma / Ras Kebdana · Mediterranean coast

10,595 exact duplicate XYZ rows removed; one repeated XY group median-collapsed (0.03 m maximum z spread); 351 candidate patches failed Fmask QC.

Counts transition from point records to spatial groups and then 30 m HLS cells; units are indicated at each stage.
